

Practice, improve,  
excel and enjoy!  
Definitely Love  
Learning!

P.05

No matter you are an educator or a self-learner, DLL is your best tool for language teaching and learning! **DLL is the first three-in-one (Audio + Video + Text) multimedia language laboratory software system** in the world. It provides you with an interactive environment which brings communication, practice and enjoyment together.

### Application

- Pronunciation practice
- Listening practice
- Presentation skills training
- Interactive language learning activities

### 3 Learning Modes

Real Time Teaching Mode	
"We are now altogether in the language laboratory, the lesson has just started"	<ul style="list-style-type: none"> <li>▪ The teacher can record voice, broadcast video and do exercises with the students in real-time</li> <li>▪ Real Time Recording is the easiest and most efficient approach to prepare teaching materials</li> </ul>
Material Teaching Mode	
"The teacher playback the recorded contents for the students to practice. Student Track Recording is controlled by the teacher"	<ul style="list-style-type: none"> <li>▪ A lesson can be delivered with prepared / recorded coursework including audio files, video clips and exercises</li> <li>▪ Student can listen and record on the Student Track repeatedly</li> <li>▪ Listen to individual student's pronunciation and provide instructions</li> </ul>
Self Learning Mode	
"I'm off the class now but I would like to continue my language learning"	<ul style="list-style-type: none"> <li>▪ With only a laptop or PC, it is possible for the students to learn wherever the DLL is installed</li> <li>▪ Students can practice pronunciation by recording a Master Track, and save the file in WAV and MP3 format</li> </ul>

### Multimedia-learning Tool

DLL supports most of the audio and visual formats, including DAT, mpg, mpeg, WAV and MP3. Functions like full screen and window mode of video broadcast on students' and/or teacher's computers, bookmark management and subtitles creation further enhance DLL as a multimedia-learning tool.

### A Mark of Quality

DLL is fully complied to AAC and AACC. It is able to synchronize voice, video and text. Listening and recording repeatedly are possible without deteriorating the original sound quality.

### Control of the Teaching Pace

In the Teaching Mode, students' DLL are under full control of the teacher. The teacher can remotely shut down Student DLL when quitting the program.

Network version (LAN-based language lab) and Single User Version are available.

### All-in-one Storage

Automatically save all AV files, exercises and bookmark index in one file under a project name.

## System Requirement

OS: Windows 2000/ XP

### Teacher Computer

- Pentium III 800 Mhz or higher recommended
- 256MB RAM recommended
- 1GB of available hard disk space
- Microsoft Direct X 9.0 or above
- Display card: 64MB RAM

### Student Computer

- Pentium III 800 Mhz or higher recommended
- 128MB RAM or higher recommended
- 1GB of available hard disk space
- Microsoft Direct X 9.0 or above
- Display card: 64MB RAM

## Functions at a Glance

- Real-time Coursework Recording
- Teaching with Prepared Coursework
- Self-learning
- Q & A in Text
- Multi-language Support
- Add/ Edit/ Delete Subtitle
- Add/ Edit/ Delete Bookmarks
- Student Pronunciation Listening
- Repeated Listening & Recording

P.07

## Benefits

### Inspirational & Effective

As a combination of pronunciation practice, video presentation, audio discussion\* and exercises, DLL creates a genuine interactive teaching and learning environment. Replacing all expensive hardware devices, DLL provides all the functions of existing hardware systems, plus a set of unique advanced features.

\* XCLASS is required for the feature mentioned above.

## Options

### Language Laboratory Accessories (Page 16)

- Audio Box ST-AB203
- Multimedia Headset ST-202
